# Welcome

*A world where time slows down to match the soothing rhythm of turquoise waters lapping on sun-drenched shores. Stroll our white coral sands, caressed by gentle, warm breezes. Dive into crystal clear depths and marvel at a firework display of fish. Allow yourself to be tempted by mouth-watering dishes at any of our great restaurants. Peruse our glittering shops. Revel in our history.*

*At the end of the day, when the sun slowly sets towards the horizon, you will know that you have been spoiled. You'll know why we're so proud to call the Cayman Islands our home.*

# Discover

From colourful history and fascinating culture to pristine sands and underwater escapes, our trio of islands promises a different style of relaxation – one that you can't help but embrace.

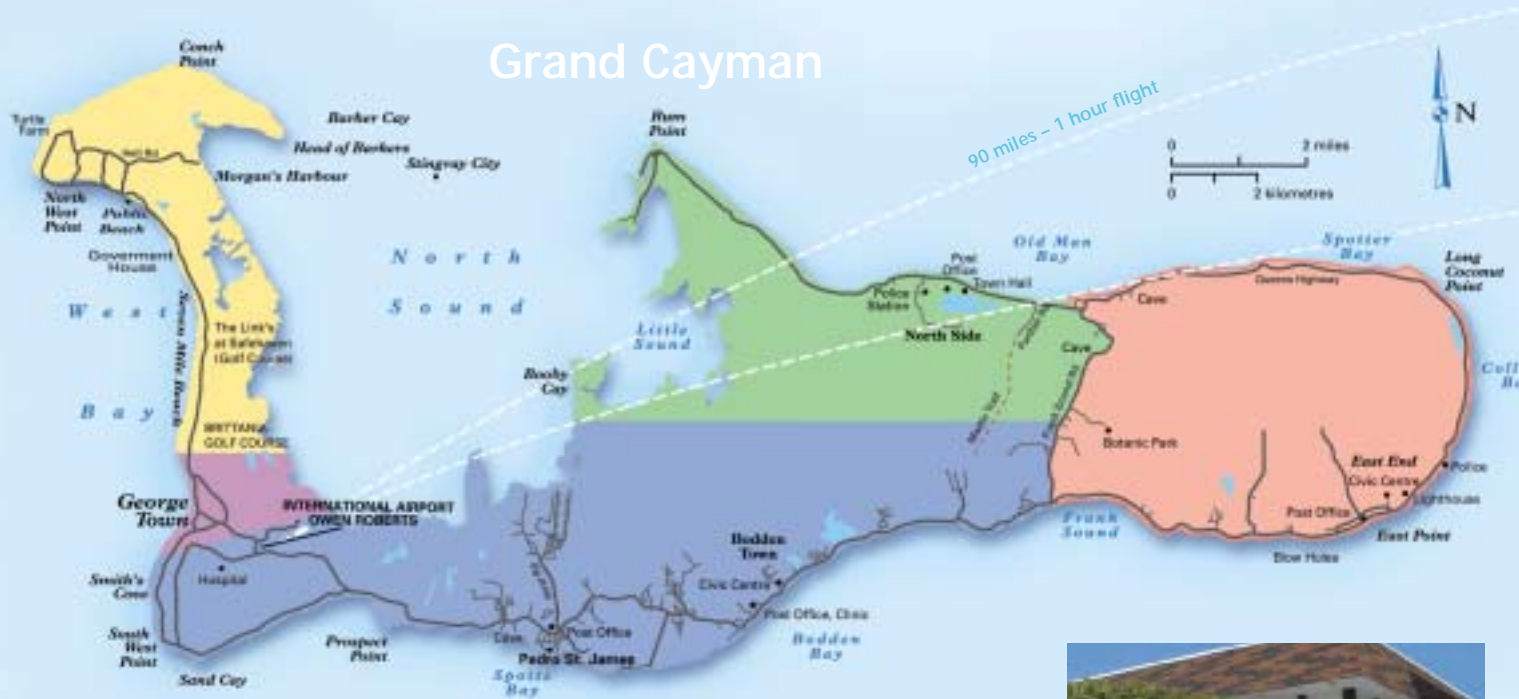

Relax on Grand Cayman's world famous Seven Mile Beach.

**Three jewels**, glistening in the Caribbean Sea, these peaceful islands lie 480 miles south of Miami, just south of Cuba and 189 miles north-west of Jamaica.

With an average year-round temperature of 82°F – or 28°C – the Cayman Islands boasts some of the finest weather in the world.

All three islands are surrounded by healthy coral reefs, dramatic walls and drop-offs close to shore, creating ideal conditions for diving and snorkelling. You'll also find an abundance of beauty on dry land. Everything from Grand Cayman's subtropical forest and floral gardens, to mangrove wetlands and cliff walks on our Sister Islands.

Our largest island, **Grand Cayman**, is home to rich local traditions and host to an international array of world-class attractions. From the powdery sand expanse of legendary Seven Mile Beach to the flair and flavour of over 150 top-notch restaurants, Grand Cayman is two parts getaway, one part gateway.

Grand Cayman is divided into five districts. Colour coding is used throughout the accommodation sections to help indicate in which area the property is located.

 West Bay / Seven Mile Beach

 North Side / Cayman Kai

 George Town

 East End

George Town offers exceptional duty-free shopping. Fine luxury goods abound.

Just off our shores lies the deepest part of the Caribbean, the Cayman Trench, which is over four miles deep. With no rivers or streams, there is no run-off, which gives the surrounding Caribbean Sea exceptional visibility, often well over 120 feet.

## Little Cayman

## Cayman Brac

### Our Sister Islands.

Just 90 miles from Grand Cayman lie two unspoiled, natural wonders, Cayman Brac and Little Cayman. Blessed with an abundance of scenic beauty and rich traditions, the Sister Islands are for anyone and everyone who ever dreamed of getting away from it all.

**Cayman Brac** invites you to discover a beautiful unspoiled world, where the natural and cultural heritage remain closely interwoven. You will find a safe, peaceful environment for walking, hiking, biking, taking leisurely drives or just basking in the warmth of the Brackers' welcome.

**Little Cayman** is the smallest and most tranquil of the three Cayman Islands. Its ten square miles of unspoiled habitat and protected heritage offer the ultimate escape and a nature lover's paradise. Explore perfect natural beauty or relax in blissful solitude.

*Little Cayman is a mecca for diving enthusiasts.*

*The 'Brac' of Cayman Brac is the Gaelic word for bluff.*

**Getting There** Scheduled flights to Grand Cayman are available on Cayman Airways, Air Canada, Air Jamaica, American Airlines, American Trans Air, British Airways, Continental Airlines, Delta Airlines, Northwest Airlines and US Airways.

A host of charters also provide non-stop flights from other U.S. cities, while inter-island travel is available with Island Air and Cayman Airways.

**Credit Cards** American Express, Diners Club, Discover, Mastercard and Visa are widely accepted.

**Duty Free** In George Town, our modern capital, duty-free shopping is a high art. Be sure to check out the merchandise from names like Versace, Tiffany, Gucci, Baccarat, Cartier, Rolex, Nikon, Louis Vuitton and more.

One important note: We drive on the left. Something to keep in mind when renting a car or crossing the street.

**Dress Regulations** Cayman Islands law prohibits all forms of public nudity, including topless sunbathing. In accordance with local customs, we also request that you put on a shirt, dress or beach cover-up as you leave the beach or travel outside your resort.

## Watersports

Safe, clear and free of pollutants, the waters of the Cayman Islands are among the finest in the Caribbean for watersports.

The prevailing winds on Grand Cayman's East End and North Sound provide near-perfect conditions for a variety of watersports including parasailing, kayaking and windsurfing. Beginners can learn the ropes on the calmer waters located inside the reef or off Seven Mile Beach.

Dive into our exotic underwater world, or view it from the comfort of a submarine. The Cayman Islands has it all for you.

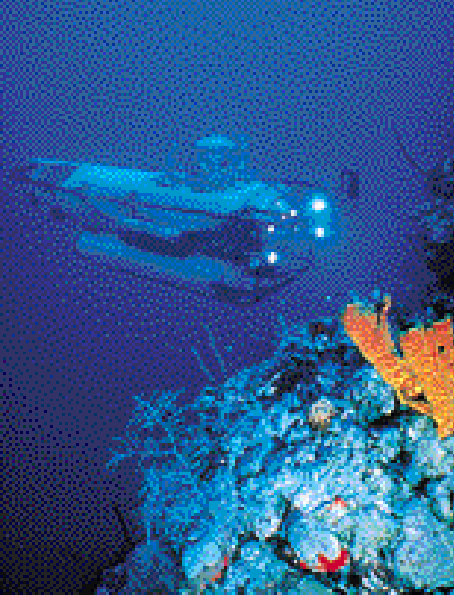

State-of-the-art facilities are the rule on the Cayman Islands, and there's plenty of choice for novices and experienced enthusiasts alike.

# Car Rentals

Should you be renting or driving any vehicle please take time to familiarize yourself with the rules of the road and your vehicle prior to taking to the road. Visitors need a temporary driving permit to drive in the Cayman Islands, which can be obtained from the Licensing Department or from any rent-a-car business. Always drive on the LEFT side of the road. Observe signs for one-way streets in George Town. Observe yellow lines on roads – they indicate No Parking. It is mandatory to stop behind school buses when children are embarking and disembarking, as the doors open into the centre of the road. Pedestrians should always remember to look in both directions prior to crossing any roadway. Always give way to emergency vehicles. Driving under the influence is a very serious offense. There is a mandatory disqualification from driving for 12 months and the penalties include fines or imprisonment.

Rates are per day and quoted in U.S. dollars, rounded to the nearest dollar.

# Our Sister Islands

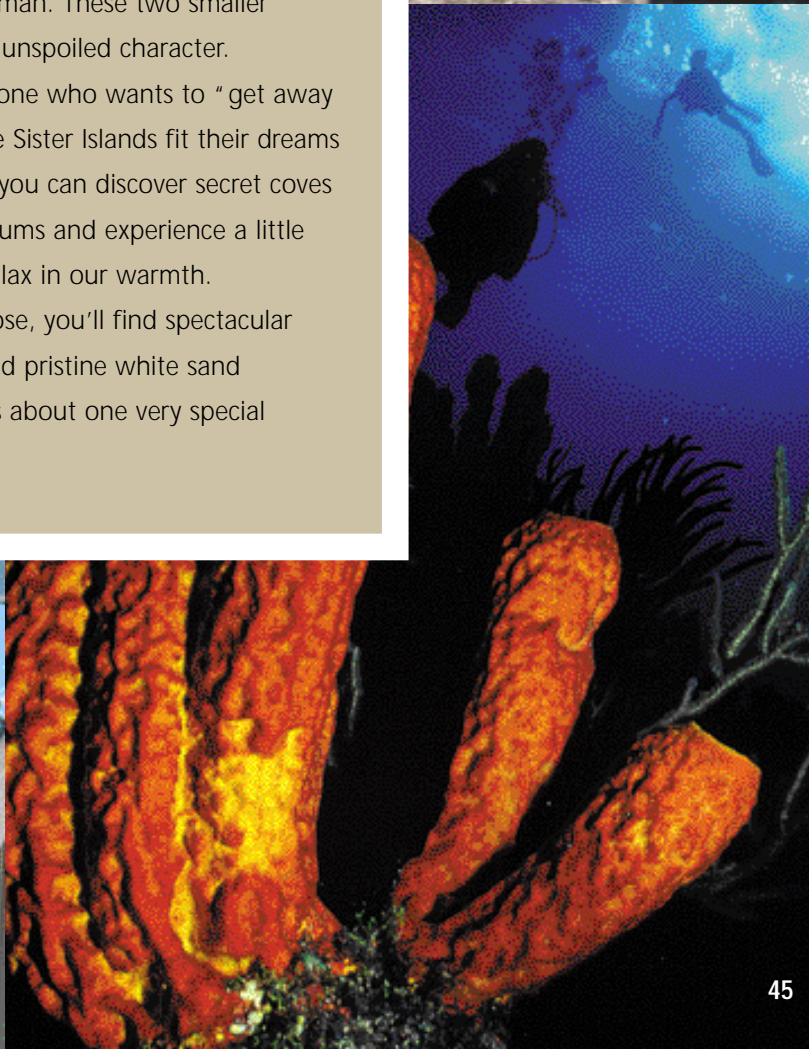

## CAYMAN BRAC & LITTLE CAYMAN

Whichever island you choose, you'll find spectacular diving and pristine white sands along with endless ways to let your body and soul relax.

Located just 90 miles from Grand Cayman, but just five miles from each other, lie the two Sister Islands of Cayman Brac and Little Cayman. These two smaller islands retain a wonderfully unspoiled character.

Divers, naturalists and anyone who wants to "get away from it all" will find that the Sister Islands fit their dreams of a tropical paradise. Here you can discover secret coves and beaches, visit our museums and experience a little of our heritage, or simply relax in our warmth.

Whichever island you choose, you'll find spectacular diving, in-land adventure and pristine white sand beaches that speak volumes about one very special corner of the Caribbean.

# Cayman Brac

12-mile long Cayman Brac is a tranquil island rising to a 140' bluff, honeycombed with pirate caves, and plunging to a dramatic subterranean water world.

**SAVOUR THE GLORY** of spectacular cliff walks on the 140-foot bluff thrusting vertically from the ocean floor. Have a close encounter with magnificent frigatebirds and brown boobies and marvel at how these winged creatures are held aloft by air currents rising from the sheer bluff face. Explore the caves in which generations of Brackers have taken refuge during storms.

**FOR BIRDWATCHERS**, Cayman Brac has almost 200 species of birds, including the endangered Cayman Brac parrot, with a population of only 350. Look for parrots on the north coast and in its protected woodland reserve on the bluff, and keep an eye out for the indigenous vitelline warbler and red-legged thrush.

Cayman Brac's wetland ponds are a bird lover's paradise.

Cayman's National bird, the Cayman parrot, is protected in the National Trust Parrot Reserve.

**OUR WETLAND PONDS** harbour a wide selection of herons and shorebirds, including the rare West Indian whistling-duck.

Many pause to rest and feed on their long migratory journey between North and South America. Some of these travellers, such as the migrant warblers, spend the winter in our woodlands.

**OUR HERITAGE SITES** are marked on the map on the reverse page. The painted panels tell the story of early settlement, the ecology of our wetlands and our protected birds, the booby and the parrot.

**CERAMIC INTERPRETIVE SIGNS AND ECOLOGY PANELS** give information on beach walks, historic sites and hikes on the woodland trails. Here trees and plants are clearly identified: the tropical cedar (the parrot's favourite for a cavity nest), the endemic silver thatch palm, pepper cinnamon, orchids and cacti.

**OUR WHITE HERITAGE SIGNS** mark the locations of all the sites of cultural interest.

**FOR YOUR OWN SAFETY**, always wear hiking boots on the trails, always carry water, consider taking a walking stick and go with a companion if possible. If you hike alone, inform your hotel of your intended routes. The limestone cracks easily, so be aware on the hiking paths — and never go too close to the edge of the Bluff. Please use the litter bins provided, leave the flora and fauna untouched, park off the main roads and respect 'Private' signs. Help us keep our island pristine. This way our island will be just as beautiful when you return!

# Little Cayman

Little Cayman, the tiny pristine island that is our home, is where natural beauty and cultural history remain closely interwoven and our concessions to civilization are few.

**EXPLORE** a nature lover's paradise where the sound of the outdoors surrounds you on a hike along the Salt Rock Nature Trail. Discover orchids, butterflies and birds in the forest; and a pirates well and the remnants of phosphate mines from the 1800s.

**THE CALL OF THE SEA** is irresistible here. You can snorkel in the shallow reef-protected sounds or dive the famous Bloody Bay Wall. We also offer both deep-sea and fly-fishing. And for a quiet day where you picnic and laze your time away, take a kayak trip to Owen Island.

Top Left: West Indian Whistling Duck.  
Top Right: Red-Footed Booby.  
Left: Iguanas are abundant on Little Cayman.

With a population of approx. 100, Little Cayman is everything a tropical hideaway should be.

## NATURAL, HISTORIC AND CULTURAL SITES

Our ceramic signs and ecology panels mark all sites of interest, while carefully constructed viewing platforms provide panoramic views of the main wetland lagoons.

**OUR NATIONAL TRUST HOUSE** has a wealth of information on these and other natural habitats and historic sites. Learn why our island has ecological significance or use the powerful telescopes to gain detailed glimpses of life in the red-footed booby colony.

**BOOBY POND** is a designated wetland of international importance, a Ramsar site, that protects the largest colony of red-footed booby – 5,000 pairs – in the Caribbean, a magnificent frigatebird colony and a large heronry. The reserve is also a winter haven for large numbers of migrant landbirds, herons, waders, shorebirds and terns.

## A BIRD WATCHER'S DREAM.

The island is home to up to 200 species including thousands of red-footed booby and an increasing population of the threatened West Indian whistling-duck.

**STROLL THROUGH BLOSSOM VILLAGE** and feel the history of its single, narrow street echoing from the traditional Caymanian houses that line it. Call in at our Museum, and visit our village park – the site of the Cayman Islands first settlement in the 1600s.

**WE STRIVE FOR NATURAL PERFECTION.** Please leave the flora and fauna untouched and our beaches and trails pristine. We want our island to still be beautiful when you return.

Vitelline Warbler.
